Enhanced Outbound

WITH OPTIONAL ADD-ONS

Bracket Encryption
For users who require even more security, you can add on Bracket email encryption for an extremely affordable price.

Extra Storage
Need more storage? You can easily add storage to a mailbox (5 GB increments) on the fly for up to 50 GB total size.

Why Exchange 2016 from us is better

Total email security

Using CloudFilter is like having your own personal spam-defense team that works around the clock. Users stay informed with daily email security reports which allow for the release of quarantined email with a single click.

**Enhanced outbound experience**

SafeSend adds many outbound features, including DLP, outbound quarantines, TLS, and content policies. SafeSend effectively reduces the daily headaches associated with managing your IP reputation.

Flexible pricing (build your bundle)

With our robust Hosted Exchange offering, you get all the features you need without having to pay for the ones you don't. Our flexible pricing model gives you the ability to afford the ultimate Exchange experience.

Exchange 2016 Features

✔ *Side-by-side view of documents and conversations*

✔ *More intelligent, more personalized inbox for improved focus*

✔ *Faster, more refined search*

✔ *People suggestions and the ability to search for events in your Calendar*

✔ *Inline URL and video previews*

✔ *Dynamic Outlook experiences across devices allow you to get more done on the go*

✔ *Outlook on the Web (OWA) features including: sweep, pin, undo, inline reply, a new single-line inbox view, improved HTML rendering, new themes, emojis, and more*
